

The Open Studio Stage Basics:

Thank you for Hosting an event at The Open Studio; we appreciate your support! The Open Studio is governed collectively which makes us all responsible for ourselves as well as our guests so please don't depend on others for your needs. Please do not drive on the lawn. If you need help or have questions, please don't hesitate to ask.

Things to consider before and after your event:

Make sure to request and confirm that the irrigation system is turned off prior to your event.

Turn on the exterior lights around the grounds as needed for the safety of your guests. Turn them off as you leave.

Set up the chairs and tables if needed.

Return the chairs and tables cleaned to their place.

All trash should be collected and taken with you.

All personal items should be removed from the stage.

Turn the stage lights and fans off when you're done.

Report any stage maintenance issues to the Administrator.

Lost or found items should be reported to the Administrator.

Thank You!
